

OGUN STATE DIGITIZED LESSON PLAN

SUBJECT: MATHEMATICS

| | |
|--|---|
| Class: Primary 2 | Term: 3rd |
| Topic: Area | Week: 2 |
| General Expected Learning Objectives: Day 1: Identifying plane shapes in the immediate environment Day 2: Differentiating between plane shape and other shapes Day 3: Determining the sizes of different shapes Day 4: Understanding the area of a plane shape Day 5: Relating the study of shapes to all the things around | Number of Lessons/Days: Day 1: Identify objects that has plane shapes Day 2: Comparing plane shapes with other shapes Day 3: Arrangement of area of shapes and objects in order of sizes Day 4: Finding and comparing pairs of shapes by counting square |
| Background/Previous Learning/Starter: Day 1: Pupils identify different types of object with different shapes Day 2: Pupils compare object with plane shapes and other shape together and regular shape together Day 3: Pupils arrange objects in order of size i.e large, larger, largest or small, smaller, smallest Day 4: Pupils find the area of square e.g. (box) or chocomilo Day 5: Pupils do further activities on measurement of area | |
| Ice Breaker Leaf, ball, book, cut out rectangle box | |
| Creative Approach | |
| Methodologies Collaboration: Teacher guide the learner in comparing the pair of faces and say which face is large. Creativity: Teacher allow the learners to collect different objects such as leaf, book, box etc Communication: Teacher and learner discuss about the outcome of their creativity works and compare with each other | Instructional Technologies and Resources: <ul style="list-style-type: none">- Teacher present objects be in pair such that the face of one is larger than the other- Teacher guide the pupils in comparing the pair of faces and say which face is larger |
| Presentation | |
| Day 1: <ul style="list-style-type: none">- Teacher collect different object such as leaf, ball, etc- Teacher explain the meaning of area to the learner- Teacher allow the learner to mention object given to the learners- Teacher lead the learner on how to identify the object given to them- Teacher engage the learners on class activities Day 2: <ul style="list-style-type: none">- Teacher start the lesson by asking the learners to compare two object together- Teacher explain the different between plane shapes and other shapes- Teacher engage the learners on class activities Day 3: <ul style="list-style-type: none">- Teacher allow pupils to arrange object in orders of sizes i.e. small, smaller, smallest or large, larger and largest | |

OGUN STATE DIGITIZED LESSON PLAN

SUBJECT: MATHEMATICS

- Teacher determine the sizes of different shape to the learners
- Teacher engage the learners on class activities

Day 4:

- Teacher allow the learners to find the area of square e.g. box, maggi cube, die
- Teacher explain the area of a plane shape to the learner
- Teacher allow the learners to identify the area of shape in diagram given to them
- Teacher engage the learners in class activities

Day 5:

- Teacher also further in activities on measurement
- Teacher engage the learners on class activities
- Teacher give the learners home work to do at home

Evaluation

Class Activities:

Day 1: Identify object that has plane shapes

Which has a larger surface? Tick

Cylinder

Rectangle

Pencil

Cuboid

Ball

Day 2: Comparison of sizes and areas of similar figure.

1. Which chicken is smaller?

Which chicken is larger?

Home Exercises:

Day 1: Which object is smaller or larger?

1.

2.

3. Colour the larger shapes

a.

b.

2. Which doughnut is larger?
Which doughnut is small?

3. Which die is smaller?
Which die is large?

4. Which ball is smaller?
Which ball is larger?

5. Which Pineapple is larger?
Which Pineapple is smaller?

Day 3: Arrangement of area of shapes and object in order of sizes.

Arrange in order of size: Large, Larger, Largest

1.

2.

Day 2: Arrange in order of size; large, larger, largest

2. Small Smaller Smallest

3.

4.

5.

Day 4: Understanding the area of a plane shape

Which shape is smaller and which shape is larger?

1.

2.

3.

4.

Day 5: Further activities on measurement

- Which square is larger?
Which square is smaller?
Which square are of the same size?

3.5 cm

A

3.5 cm

5.8cm

B

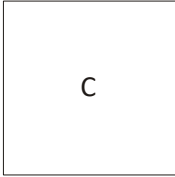

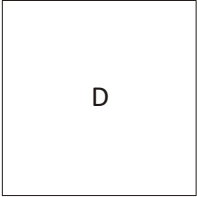

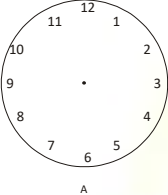

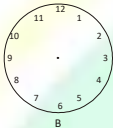

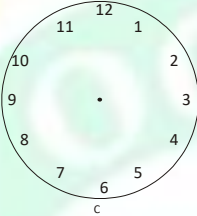

5.8cm

OGUN STATE DIGITIZED LESSON PLAN

SUBJECT: MATHEMATICS

| | |
|---|--|
| <p>2 cm</p>  <p>C</p> <p>2 cm</p> | <p>3.5cm</p>  <p>D</p> <p>3.5cm</p> |
| <p>2. Which wall clock is larger? Which wall clock is smaller? Which wall clock are of the same size?</p> <div><p>A</p><p>B</p><p>C</p><p>D</p></div> | |

CONTENTS/NOTES

Day 1: Which has a larger surface? Tick

1.

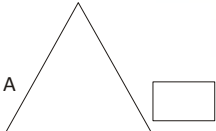

A

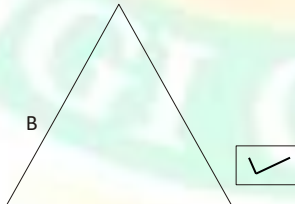

B

2.

A

B

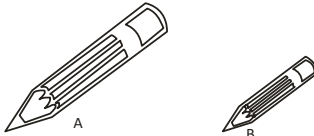

Day 2: Comparison of sizes and areas of similar

Which object is smaller and which object is larger?

1.

Coin A is smaller
Coin B is larger

Pencil A is Larger
Pencil B is smaller

OGUN STATE DIGITIZED LESSON PLAN

SUBJECT: MATHEMATICS

3.

Square A is larger
Square B is smaller

Day 3: Arrangement of area of shapes and object in order of sizes

Arrange in order of size; large, larger, largest

1.

Answer = B, C, A

2. Small Smaller Smallest

Answer = A, B, C

Day 4: Which shape is smaller and which shape is larger?

1.

A is smaller than B
B is larger than A

2.

A is larger than B
B is smaller than A

OGUN STATE DIGITIZED LESSON PLAN

SUBJECT: MATHEMATICS

Day 5: Further activities on measurement

Example:

1. Which rectangle is largest?
2. Which rectangle is smallest?
3. Which rectangles are of the same size?

Solution

1. Rectangle C is largest
2. Rectangle B is smallest
3. Rectangle A and B have the same size
